

THE CORPORATION OF THE TOWNSHIP OF SOUTHWOLD

-AGENDA-

Wednesday January 15, 2025

SPECIAL MEETING OF COUNCIL

7:00 pm, Council Chambers, Fingal/Via Video Link

For the purpose of Budget Deliberations-Operating and Capital

- 1. CALL TO ORDER
- 2. DISCLOSURE OF PECUNIARY INTEREST
- 3. REPORT
 - (a) FIN 2025-03 2025 Budget Report #3 and 2025 Draft Operating and Capital Budget.
- 4. ADJOURNMENT: NEXT BUDGET MEETING OF COUNCIL (If needed)

 Thursday January 23, 2025 @ 7:00 P.M.

 Council Chambers, Fingal/Via Video Link

NEXT REGULAR MEETING OF COUNCIL Monday January 27, 2025 @ 7:00 P.M. Council Chambers, Fingal/Via Video Link

TOWNSHIP OF SOUTHWOLD

Report to Council

MEETING DATE: January 15, 2025

PREPARED BY: Michele Lant, Director of Corporate Services/Treasurer

REPORT NO: FIN 2025-03

SUBJECT MATTER: 2025 Budget - Report #3

Recommendations:

1. That the 2025 Budget Levy of \$7,409,841 be approved.

2. That staff be instructed to proceed with preparing the Budget Summary presentation and necessary by-laws and reports to implement the budget.

Purpose:

To present the Draft of the 2025 Operating Budget and Capital Forecast based on Council direction.

Background:

Staff and Council have reviewed detailed Capital Forecast documents and staff recommendations over the past few months. This report consolidates the review and comments from Council and all staff. These documents should be viewed as the first draft and could change as it proceeds through the Council review process. Staff will be recording decisions for increases and decreases as directed by Council and will make the necessary changes to the budget documents.

Comments/Analysis:

Cash Requirements/Reserve Contributions

Most Township capital work is funded through reserves. Reserves are built up through cash contributions (Tax Levy Dollars) to the reserve and the reserve is drawn down when projects take place. This is an effective way to manage large projects for a small municipality, as it avoids significant increases and decreases in the levy from year to year. This process also works well for incorporating Asset Management Planning into the budget process. With assistance from consultants in 2019, the Township's asset inventory has been reviewed and projections made for 25 years. This exercise starts to provide information on how much funding will be needed to maintain, refurbish, reconstruct, or replace the assets the Township has. While this is helpful to inform the

budget process, the Province has made Asset Management Planning a legislated requirement the Township must comply with.

The Cash Requirements/Capital budget is showing a levy requirement of \$4,078,956. This is an increase of \$593,960 or 17.4% over the 2024 Budget. The forecast for 2026 shows a decrease of \$64,570. This does not include any new revenue generated from assessment growth. This is discussed further in the Capital and Reserves from Tax Levy section below.

Administration:

Administrative reserve contributions remain consistent with previous years to maintain the ability to upgrade computers and office equipment when required. Staff recommends maintaining the reserve contribution to the Computer Reserve for future computer and server requirements. The Efficiency reserve continues to be utilized for plan and study updates and to improve efficiencies within the office. The maintenance manager program was implemented in 2024 using this reserve. The Laserfiche AP Process Automation project and Industrial Land Secondary Planning will be funded from the Efficiency reserve in 2025.

Administration Facility:

The current forecast shows renovations/addition over 2027/2028 with utilizing a contribution from Green Lane starting in 2026. Projections for Green Lane show there could be capacity in 2026 after contributions for the Talbotville Firehall, Parks and Trail Master Plan, Flood Mapping project and the CSIT Grant in 2025. If Green Lane funds are needed for other projects, this could impact the forecast for office improvements.

Medical Centre:

Medical Centre reserve contributions remain consistent with 2024. Installation of the sanitary service is included in the 2025 capital forecast.

Fire Department:

Fire Department reserve contributions for vehicles remain consistent with 2024 with anticipated increases in future years due to the increased costs for replacement vehicles. Equipment reserve contributions remain consistent with previous years to maintain a regular cycle of replacement. Building reserve contributions remain at the same level for a future addition at the Shedden Firehall. Communications reserve contributions of \$30,000.00 per year until 2027 which will be used for a County-wide communications upgrade.

Talbotville Firehall replacement is scheduled to be completed early 2025. Through donations from Green Lane and utilizing funds from the increased assessment for the

tax levy, the cost of the construction is anticipated to be completed without external financing.

Shedden Firehall is in need of a fourth bay. The design, planning and engineering, proposed in the 2023 capital projects with construction included in the proposed 2024 capital projects has been delayed until 2026 to accommodate the increased cost of the Talbotville Firehall.

Talbotville Rescue replacement proposed for 2025 has been delayed until 2026 budget discussions.

Building Department:

While the reserve is quite large, it will provide stability and ensure Building Department operation does not impact the tax levy for many years. The 2024 budget and proposed 2025 budget include transfers from reserves due to the decrease in building activity.

Roads:

The proposed road capital program includes a 10-year capital forecast, and a 5-year phase-in to meet the recommendations of the 2024 Road Needs Study. This is equal to a 4.5% increase of the levy each year for 5 years, using the 2025 assessment value. This increased investment is critical to maintain the existing road network and improve sections of the network to be cost efficient over the long term. The roads department is seeing increased efforts into patching and maintaining roads that have deferred beyond recommended investment cycles. Staff reviewed operating budgets and made reductions where prudent to keep budget contributions in line with actual expenditures. Major 2025 projects include the reconstruction of Thomas Road, rehabilitations of John Wise and Longhurst Line, resurfacing Scotch Line, associated road works required to construct the sewers in Shedden, and engineering design of Fingal in collaboration with the County of Elgin.

Roads Facility:

The construction of the expanded roads facility is underway, with a planned completion of June 2025. The project is currently on budget, with only minor use of the contingency to address some field tiles that weren't known at the time of design. Long term borrowing is the Council approved funding method. Staff do not anticipate any significant deviation from the originally projected borrowing costs.

Roads Equipment:

Proposed equipment replacements for 2025 include the 2016 Dodge Crew Cab which was postponed from 2024, refurbishing of the 2008 Trackless and a push broom for

intersection sweeping. The equipment reserve, even with funding from Green Lane is in a deficit position for a couple more years.

Funding for the Road Equipment Reserve is through equipment operation and does not show directly on the tax levy through the Capital Forecast. Increasing the reserve contribution to \$350,000 would bring the reserve to a positive value starting in 2029. Staff will be further examining this impact as the operating budget is developed.

Bridges and Culverts:

Bridge and culvert reserve contributions remain the same as 2024. The Bridge Study completed in 2024 recommends rehabilitation of the Lyle Bridge, Scotch Line culvert replacement, and Iona Road culvert replacement. The Thomas Road culvert at Union Road is included in the capital forecast but staff is recommending this project occur at the time of Thomas Road reconstruction.

Keystone and Library Facility:

Keystone and Library Facility reserve contributions remain the same as 2024. Electronic sign replacement is planned in the 2025 budget. Staff recommends that reserve contributions remain consistent for future equipment replacements as noted in the Forecast.

Parks:

Parks reserve contributions increase with anticipated developments in Shedden and Fingal. Proposed 2025 projects for various parks include asphalt conversion of walking trails, installation of park benches and dog waste signage and bins (carried forward from 2023). With the reorganization of the parks department to include a second full-time seasonal parks employee, the 2025 capital forecast includes the purchase of an additional lawnmower. Installation of a sanitary connection at Corsley Park is included in the 2025 capital forecast

Planning:

The Industrial Land Secondary Planning project is identified in 2025 for completion using the Efficiency Grant Reserve.

Drainage:

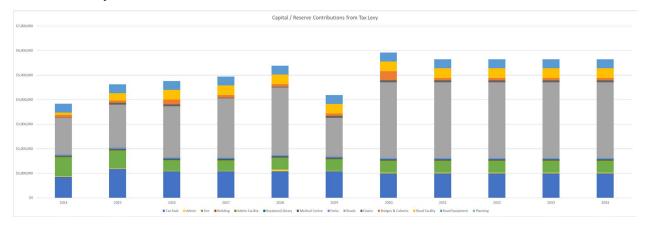

Drainage reserve contributions returned to the previous contribution amount. Four drainage construction projects are included in the capital forecast for 2025.

Capital and Reserves from Tax Levy:

The 2025 Capital Forecast is showing an increase to the requirements from the Tax Levy. The increase is \$548,360 or 12%. With the increase in assessment this translates

into 7.48% on the overall Levy. Currently the funding required for the Public Works Facility financing is approximately \$270,000 annually for 25 years or \$247,000 annually for 30 years. Rates continue to fluctuate and staff is reviewing impacts on cash flow to determine when outside financing will be necessary. Other significant increases include the Tax Stabilization Reserve which will be required due to the risk of assessment reductions associated with new industrial development. The current forecast illustrates the situation with utilizing the additional revenue. Staff have modeled various scenarios utilizing additional revenue in 2025 and forward. We need to keep in mind that all supplemental revenue cannot be applied to just the capital program. It is also applied to operating increases and in this situation, a significant portion is allocated to the Tax Stabilization Reserve for eventual assessment appeals and possible rebates.

Council and staff will need to thoroughly review and understand the assumptions and risks associated with decisions that need to be made for this budget. Finance staff tend to be conservative with estimates and assumptions, as over estimating revenue that does not materialize sometimes leads to a double impact in following years (lowering the estimate and needing to recover the lost revenue from the prior year). It should also be noted that staff are approaching this based on the assumption that any additional revenue will be utilized to cover increasing costs and not used for a significant reduction in the tax levy.

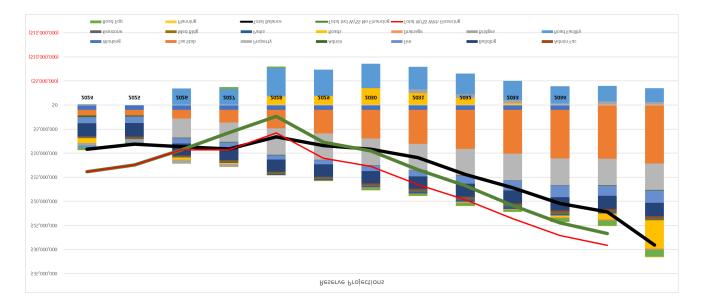

Reserves

Reserve levels are forecast to remain relatively stable for the next several years for most areas. The forecast assumes financing for the Public Works Facility, financing for significant Sanitary Sewer Projects and significant upfront payments from Developers for sanitary sewer projects. Without this, there will be significant negative impacts on the overall reserve levels and there will be impacts on cash flow. The following chart illustrates all Township reserves and includes a total with Water and Sanitary Sewer Reserves. There is also a total line illustrating the incorporation of financing. The projections also includes significant land sales (Stoss and Teetzel) and the ongoing operating challenges with the Talbotville Sanitary System. There are also projections

related to the Shedden/Fingal Sanitary system. The sanitary system challenges and costs greatly impact overall reserve levels, thus necessitating the need for financing.

In 2022, the forecasts related to the Shedden/Fingal Sanitary Servicing and Public Works Facility were much lower and it was anticipated a significant amount would be funded from the land sales. Staff is evaluating the effects of the HEWSF grant in relation to all financing options for the Shedden/Fingal Sanitary Servicing. Other reserves such as the water reserve and the Building Reserve are also assisting with being able to complete several large projects over the coming years.

Maintaining healthy reserve levels is beneficial for eventual asset replacement and helps maintain cash flow, minimizing/eliminating the need for short-term borrowing and association costs.

Budget Review Process

Staff from each department has presented the Capital Forecast recommendations to Council and requested changes from Council have been incorporated into the Capital Forecast version included with this report. Staff are suggesting that if there are additional items under consideration for decreases or increases, that Council identify the items for Staff to make the adjustments to understand the impact on the overall budget.

At this time, both a Draft Operating Budget and Capital Forecast have been developed and ready for review by Council at the first budget meeting.

Summary

In summary, staff have put forward a capital budget that allows Council the opportunity to move ahead on projects like road conversion projects which can lower ongoing

operating costs and improve the level of service for residents. It also reflects the upcoming needs and tries to address the significant funding requirements for Asset Management.

In budget discussions with Council in late 2024, staff presented a report advising of a possible 10-12% levy increase. Staff was directed to reduce the levy increase by approximately 3%. Following initial discussions, Staff was advised of a reduction to the 2025 OPP Estimate. This reduction has been incorporated into the Draft. Staff have put forward an draft operating budget consistent with Council direction with a 7.48% levy increase.

While maintaining the lowest tax rates in the area, the use of additional funds generated can continue to improve the level of service for residents over the next 5-10 years. If other sources of revenue such as Green Lane Trust or Assessment based PIL (Landfill) decrease or disappear, the Township will be in a better position to lower capital expenditures rather than having to raise additional revenue from taxation. While there could be a decrease in taxation in 2025, doing so will only increase the likelihood of larger increases in the future. Maintaining stability for taxation would be better than significant increases/decreases and would be easier for residents to plan for.

Staff is looking forward to working collaboratively with Council on the 2025 Budget and delivering our important services to the residents of the Township.

Financial Implications:

The Operating Budget and Capital Forecast will help establish and guide financial planning for 2025 and beyond.

Strategic Plan Goals:

| The above recommendation helps the Township meet the Strategic Plan Goal of: |
|------------------------------------------------------------------------------|
| ☐ Managed Growth |
| \square Welcoming and Supportive Neighbourhoods |
| ☐ Economic Development |
| ☑ Fiscal Responsibility and Accountability |
